

## Fastbind Spring Package 3: Casematic H32 Pro and consumables

When you want to create quality hard covers or cases quickly and economically, **Fastbind Casematic H32 Pro™** is for you. This compact, innovative table-top unit makes it easy to create custom hard covers for books and ring binders, cases, and much more. You produce covers from under A6 to over 32 x 32 cm under one minute with no set-up time or production stops between formats. Make book covers, ring binders, luxury cases, wall art or photo album covers.

This is the perfect case making solution for all your on-demand, short and medium runs finishing needs. With the ergonomic Fastbind Casematic H32 Pro, the case making process is intuitive: place the printed tacking sheet on the table, position the boards, cut the four corners with optional corner cutter, and fold the sides. Thanks to the light table, the position of your cover is always precise, and the spine text set exactly in the correct position. The patented support shelf prevents mistakes: you place the boards accurately the first time and reduce the risk of air bubbles. Optional quick change spacers allow you to change the width of the gap between the spine and the boards.

## Create custom hard covers for books, ring binders, cases and much more

### Included in this package:

- Fastbind Casematic H32 Pro
- Consumables for 50 hard covers including special mechanical supplies
- A kit of book and cover samples for display
